

U.S. ARMY TMDE OWNER / Point of Contact

The purpose of this job aid is to provide the user with a step-by-step guide on how to locate and proceed through the TMDE Owner/Point of Contact Training course within ATIS and how to self-enroll. Locating and enrolling into this course can be completed using the steps that are outlined and demonstrated in this job aid.

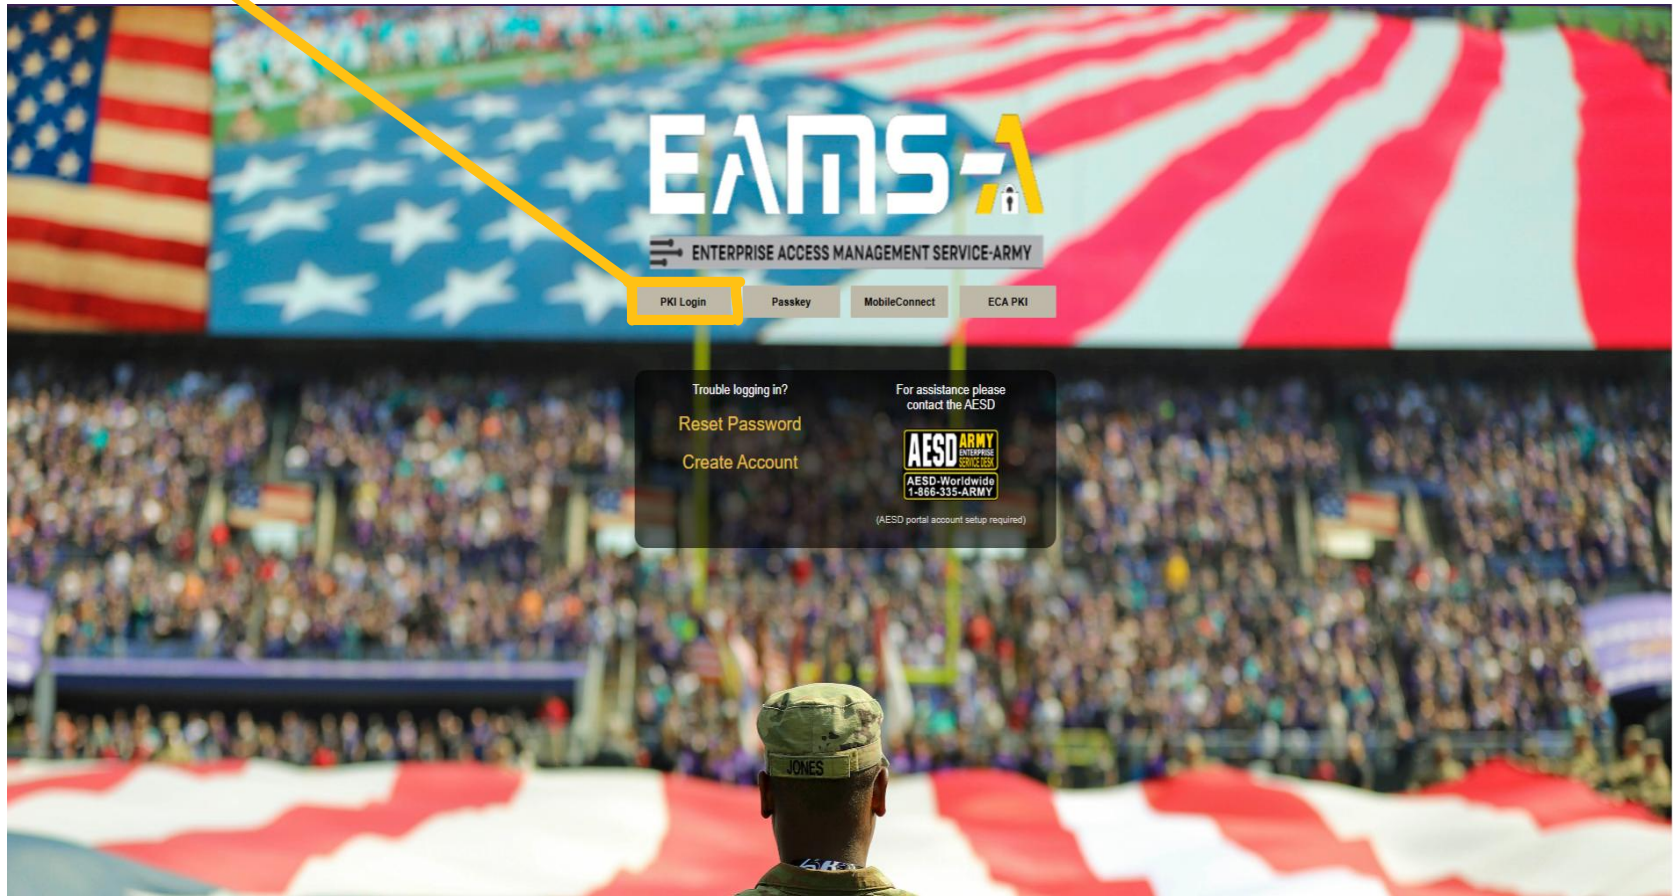

FEBRUARY 2026

TMDE Training Login Aid

Step 1. Go to <https://learn.atis.army.mil/education/> and click PKI Login.

Step 2. Select a certificate for authentication and click “OK” to proceed.

TMDE Training Login Aid

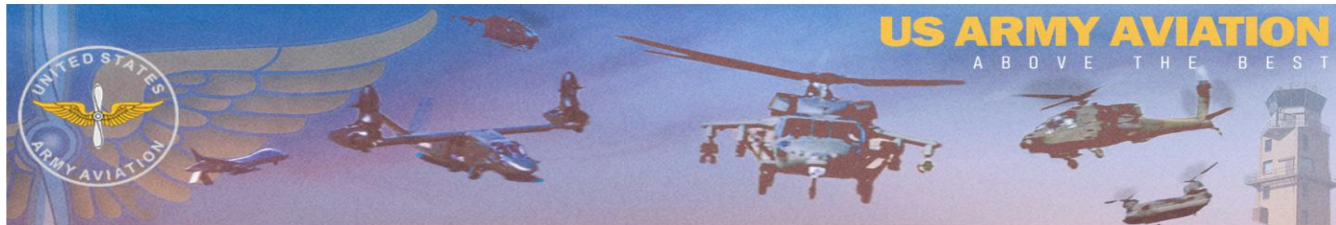

**** NOTE:** Please verify your EMAIL Address by clicking on your **Initials Icon** on the top left of the screen. Select **Profile** in the drop-down menu. Verify your email is correct in your profile. (specifically, army.mil NOT mail.mil) Select **Edit Profile** to change your email if it is not.

This will ensure your certificate gets emailed correctly when you complete the training.

Welcome

Collapse all

Welcome to the TMDE Owner / Point of Contact Training Course. In this course, you will learn the features of TMDE, and by the end of the class understand the responsibility and authority for monitoring the command, installation, or unit TMDE management program.

Students will be able to take it as many times as needed.

Expected time for completion: 1 HR

Certificate of Completion will be issued **immediately upon completing** the **Test** at the end of the training. Please check under your "Course Certificates" tab for your certificate.

****NOTE:** Your certificate will **NOT** be emailed to you. You may download the certificate when you successfully complete the Test. the certificate will remain on this site for future reference.

Purpose
The content provided in this course is designed to introduce and provide the information needed to assist in performing duties as a TMDE Owner and or Point of Contact.

TMDE Description
The TMDE program ensures that accurate and serviceable TMDE is available for Army use with measurement accuracies traceable to the National Institute of Standards and Technology (NIST).

Learning Objectives
Students will obtain the ability to navigate the TMDE application and identify the TMDE that requires calibration or repair, prepare all required documentation, turn in and pick up equipment, and keep the TMDE Support Activity (TSA) aware of any changes in TMDE status.

Step 10. After successful completion of Test, Your Completion certificate will populate below the test under **Course Certificate**. **Note:** Your certificate will also be emailed to you upon completion (provided your address is correct).

The screenshot shows the ATIS Army Learning Management System interface. The left sidebar contains a navigation menu with the following items: Welcome, Announcements, TMDE Owner Point of Contact, Additional Information and e..., Reference materials, Army Regulations, Contact information / questi..., Test, TMDE Exam, and Course Certificate. The 'Course Certificate' item is highlighted with a yellow arrow. The main content area displays the 'TMDE Owner Point of Contact' course page. The page has a header with the course title and a sub-header with tabs for Course, Information, Settings, Participants, Grades, and More. The 'Course' tab is selected. The main content area includes a 'Welcome' section with a USATA logo, a paragraph of text, and a 'Collapse all' link. Below this is a section titled 'Expected time for completion: 1 HR'. Further down is a section titled 'Certificate of Completion' which states that the certificate will be issued immediately upon completing the Test. A note follows, stating that the certificate will NOT be emailed to the user and must be downloaded from the site. The 'Purpose' section describes the content of the course. The 'TMDE Description' section states that the TMDE program ensures accurate and serviceable TMDE is available for Army use. The 'Learning Objectives' section lists the skills students will gain.
